

Description

Introducing the NMAX 2-in-1 Hobby & Hat Heat Press Machine (Model No.: NMAX-200)—your ultimate tool for creating custom designs on a variety of items, including bags, hats, ornaments, tags, and labels. Designed for both hobbyists and professionals, this heat press combines advanced features with user-friendly controls to deliver exceptional results.

Key Features

- **Auto-Open Technology:** The NMAX-200 features an Automatic Release Function that opens the press automatically when the timer ends, streamlining your workflow and reducing manual intervention.
- **Quick-Change Heat Platens:** Equipped with interchangeable upper and lower platens, this machine supports four adjustable cap bases (72x138mm, 78x125mm, 100x138mm, 102x161.5mm) to accommodate various cap styles, including baseball caps and bucket hats. A 15x15cm T-shirt platen is also included for added versatility.
- **Precise Digital Controls:** The GY-06 Digital Controller offers temperature settings up to 225°C with $\pm 0.5\%$ precision and a timer range of 0-999 seconds, ensuring consistent heat distribution for flawless transfers.
- **Durable Construction & Ergonomic Design:** Built with a robust aluminum frame and gas spring control, the NMAX-200 provides stable support and smooth operation. Its compact footprint (72x40x63cm) fits seamlessly into various workspaces, and its intuitive interface is suitable for users of all skill levels.

- **Ideal for Various Projects:** Whether you're personalizing caps, creating custom gifts, or starting a small business, the NMAX-200 excels in sublimation, HTV, and other heat-transfer techniques. Its fast-heating element (500-1000W) ensures quick warm-up times and efficient production.
