

Description

The **mug heat press machine** is a double-station mug heat transfer machine that is suitable for transferring designs onto ceramic mugs, glass mugs, stainless steel mugs, and other types of mugs with high quality and ease of use. It's user-friendly mug press, which can increase production efficiency.

Its main features include:

Double-station Design: This mug press has a double-station design that allows two mugs to be printed simultaneously, increasing production efficiency.

Wide Applicability: This mug press is suitable for transferring designs onto various types of mugs, such as ceramic mugs, glass mugs, and stainless steel mugs, meeting diverse heat transfer needs.

Easy to Use: This mug press is easy to operate and user-friendly, even for those without prior experience.

High-quality Heat Transfer Effect: This mug press adopts high-quality heat transfer technology, which enables high-definition and high-precision design transfers.

Accommodates 9oz, 11oz, 12oz, 17oz mug etc all standard mugs could be transferred by this [mug press machine](#).

Newest Double Stations Mug Press

- *Transfer 2 different sizes of mug at one time
- *Exchangeable mug heaters for various mugs
- *Adjustable pressure
- *Special Racing car outlook design

Specification

Model No.	MP-20B/ MP-20D
Machine Type	Double Station, Easy Heater Exchange
Mug Heater	9oz, 11oz, 15oz, 12oz & 17oz Latte Mug etc
Controller	GY-04 Digital Time & Temperature Control
Maximum Temp.	220°C (437°F)
Temperature Accuracy	±0.5%
Time Range	120-220 Seconds
Power	2*300W=600W
Current	2.8A/ 5.5A
Voltage	220V/ 110V
Frequency	50-60Hz
Gross Weight	19kg
Packing Size	55x52x38cm
Machine Pressure	Adjustable

Feature

Adjustable Supporting Block: Adding two adjustable supporting blocks on mug press, ensuring larger pressure for different size mug heaters.

Pressure Adjustable Hand Wheel: You can adjust pressure more conveniently and have better transfer results.

Individually GY-04N Digital Control: Each station of mug heat press works individually, may control any single station. Stable and safe use.

Double Station Design: Double-station design that allows two mugs to be printed simultaneously, increasing production efficiency. Exchangeable: 9oz/11oz/12oz/17oz mug heating element.

Application

This mug press can transfer 4 different sizes of mug 9oz, 11oz, 12oz and 17oz latte mug etc.
