

Description

MP-200 DOUBLE STATION MUG HEAT PRESS - MODEL NO. MPA-200

Versatile, Efficient & Compact Design for High-Volume Mug Printing

The **MPA-200 Double Station Mug Heat Press** is the perfect solution for hobbyists, small businesses, and DIY enthusiasts looking for a reliable and efficient mug printing machine. With its **2-in-1 design**, this compact yet powerful machine allows you to transfer designs onto **different size mugs** such as **9oz, 11oz, 15oz**, and more, all in one go.

Key Features

- **Dual Station Design:** Transfer designs to **two mugs simultaneously** for increased production efficiency.
- **Precise Control:** Equipped with **two individual digital GY-04 controllers**, allowing independent control of **time** and **temperature** for each mug.
- **Wide Compatibility:** Ideal for **ceramic mugs, glass mugs, stainless steel mugs**, and more.
- **Max Temp 225°C:** Achieve high-quality prints with temperatures up to 225°C.

- **Stable & Durable:** Constructed with a **sturdy welded steel structure** for long-lasting reliability, and features **stronger handles** for improved durability and ease of operation.
- **Digital Display:** Accurate **time** and **temperature** settings with **two separate digital controllers** for precise monitoring.
- **Efficient Pressure Distribution:** High-quality **mug heaters** provide **uniform pressure**, ensuring consistent and flawless designs every time.
- **User-Friendly Operation:** With an **innovative handle structure** and additional feet for extra stability, the **MPA-200** is designed for effortless operation.

Specifications

- **Voltage:** 120V/220V
- **Power:** 600W
- **Time Range:** 0-480 seconds
- **Maximum Temperature:** 225°C
- **Packing Size:** 48x44x47 cm

- **Gross Weight:** 18.6 kg

This **MP-200 Mug Heat Press** is designed to handle high-volume work, making it an excellent choice for custom mug printing. Whether you're printing for personal use or fulfilling large orders, this machine offers a perfect balance of **efficiency, versatility, and ease of use**.

Why Choose the MP-200 Double Station Mug Heat Press?

- **High-Volume Printing:** Print on two mugs at once, boosting your output and saving time.
- **Durable Construction:** Built to last with a robust design that can withstand frequent use.
- **Versatile & Compatible:** Works with a wide range of mugs, including ceramic, glass, and stainless steel, offering endless design possibilities.
- **Compact & Space-Saving:** Its compact design makes it easy to store and operate in smaller spaces without sacrificing performance.

Whether you're starting a small business or adding to your existing mug printing capabilities, the **MP-200 Double Station Mug Heat Press** is the ideal tool for high-quality, efficient mug transfers.

Get yours today and elevate your mug printing business with the MP-200!
