Compatible With

- RHP Series

- SHP Series
 - UHP Series
 - AHP Series
 - APDS & APD Series
 - TC Series
 - MAX-CLAM & MAX-HOVER models
 - Plus other standard heat-press formats
-

Key Features

- **Quick-Swap Convenience**
Tool-free installation for rapid platen changes, allowing you to handle various garment types seamlessly.
- **Heavy-Duty 25 mm Thickness**
Solid 25-mm aluminum base resists warping and remains stable under high pressure—ideal for industrial use.
- **Heat-Resistant Mat Included**
High-temperature silicone mat withstands up to 230 °C (446 °F), ensuring consistent performance and safety in extended runs.
- **Anti-Slip & Secure Grip**
Rubber surface prevents garment shifting, eliminates misalignment, and ensures precise transfers.
- **Shock Absorption & Noise Reduction**
Dampens vibration and minimizes operational noise—great for busy shops or shared workspaces.
- **Eco-Friendly & Long-Lasting**
Made from premium recycled rubber; built for durability under daily use.

- **Easy Maintenance**

Removable mat wipes or rinses clean effortlessly, making upkeep simple and fast.

Product Specifications

- **Mat Material:** Heat-resistant silicone rubber
 - **Base Plate:** 25 mm solid aluminum
 - **Max Temperature:** 230 °C (446 °F)
 - **Mounting:** Universal quick-change bracket slots
 - **Color:** Standard black (custom colors available on request)
-

Perfect For

- T-shirt & hoodie printing
 - Sleeve, label, and pocket transfers
 - Sublimation, HTV, and DTF applications
 - Industrial textile production and custom apparel shops
-

Why Choose Our Quick Change Lower Platen?

- **25 mm thick aluminum** ensures durability and stability
- Minimize downtime with tool-free platen changes
- Enhance safety and protect your machine's surface

- Maintain consistent print quality across different garments
 - Extend the overall life of your heat press
-

Machine Warranty

Microtec's Commitment to Customer Support
