

Description

Professional ISO 9001 and MSDS Certified Sublimation Ink for high-efficiency heat press transfer; Non fading, strong stability and durability. Microtec water-based dye sublimation ink offers high thermal transfer print rates, producing bright and vivid colors with high saturation, good penetration, fast-drying, water resistance, and colorfastness. The diameter of the ink particles is only half of the ink outlet, which can easily pass through without clogging the printer head.

Microtec refill ink bottle perfectly fits the ink tank of Epson printer. Automatic ink filling status recognition, easy filling ink.

Wide Compatibility

Microtec sublimation ink is suitable for Stylus C88 C88+ EcoTankET2760 ET2720 ET2803 ET2800 ET3760 ET4760 Task Force WF3620 WF3640 WF7620 WF3540 WF7620 WF760 WF70 WF760 WF760 010 WF7110 WF7210 WF7510 WF7520 WF7610 WF7710 WF7720 Printer etc.

Reliable Performance

Microtec Sublimation ink is rigorously tested before delivery to ensure high quality and strong stability and durability. The diameter of the ink particles is only half of the ink outlet, which can easily pass through without clogging the printer head.
