

IDEAL FOR STARTUPS AND LARGE-SCALE

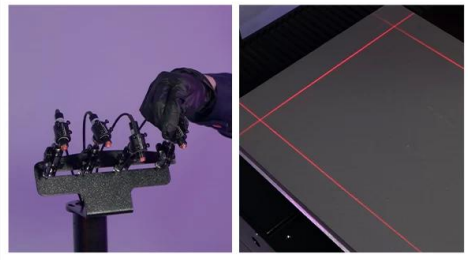

Introducing the TSLE Dual Station Heat Press – the ultimate industrial-grade solution for high-volume POD T-shirt and hoodie printing. Designed with precision, speed, and efficiency in mind, this advanced heat press is ideal for print-on-demand businesses, sportswear decorators, and custom apparel printers looking to elevate their production capabilities.

Features

- **Dual Station Design:** Boost your productivity by operating two independent workstations simultaneously. Perfect for managing large-scale orders and mixed garment sizes without compromising quality.
- **Automated Laser Positioning:** Experience pinpoint accuracy with the integrated automated laser positioning system. This feature minimizes misalignment, ensuring every print is executed with 99.9% precision.
- **Rapid Plate Change System:** Adapt quickly to different garment sizes and order types. The innovative quick-change slider system enables rapid plate swapping, keeping your production line moving efficiently.
- **Industrial-Grade Durability:** Built for continuous, high-speed operations, the TSLE Dual Station Heat Press meets the rigorous demands of high-volume production environments while maintaining eco-friendly operation and minimal waste.
- **Energy Efficient:** With optimized power consumption (1.7KW/1.8KW) and compatibility with both 110V and 220V systems, this machine supports sustainable practices without sacrificing performance.

PRODUCT HIGHLIGHTS

Laser Positioning System

GY-13 Touchscreen Controller

Pinch-Guard Safety System

Quick-change Lower Platen

Emergency Stop for Safety

Why Choose the TSLE Dual Station Heat Press?

Maximize your output and streamline your workflow with a heat press that combines cutting-edge technology with robust performance. Whether you're printing sportswear, custom T-shirts, or hoodies, this machine ensures every design is aligned to perfection, saving you time and reducing material waste. Its state-of-the-art features empower you to produce high-quality prints consistently, making it an essential investment for any modern apparel decoration business.

Upgrade your production process today with the TSLE Dual Station Heat Press - where precision meets efficiency, and every print is a masterpiece.

Machine Warranty

Microtec's Commitment to Customer Support

At Microtec, our primary goal is to ensure that our customers can carry out heat transfer activities seamlessly. To support this, we offer **FREE SPARE PARTS** with qualifying orders, alongside the following comprehensive guarantees:

- **Lifetime Technical Support** for all heat press machines.
- **Two-Year Warranty** on the machine.
- **Five-Year Warranty** on fusions and welds.
- **Five-Year Warranty** on the heating plate.
- **Six-Month Warranty** on heaters for cups, plates, and caps.

We are dedicated to providing long-term reliability and peace of mind for your heat transfer operations.
