

Microtec MP-70BA-T Touch Screen Mug Heat Press - For 9oz & 11oz Sublimation Mugs

Intuitive Touch Control. Superior Heat Distribution. Built for Sublimation Beginners.

The **Microtec MP-70BA-T** is a next-generation mug heat press machine designed specifically for **sublimation printing on 9oz and 11oz mugs**. Featuring a **modern GY-10 Touch Screen Digital Controller**, this press offers simple, precise control over temperature and time, ensuring **consistent and professional results** every time.

Engineered with a **durable iron electric box, tool-free heater replacement**, and **dense heating coils**, the MP-70BA-T combines **performance, safety, and ease of use**, making it the ideal solution for home-based crafters, small businesses, and print-on-demand startups.

Features

- **GY-10 Touchscreen Controller**

Stylish, easy-to-use digital control panel for **precise temperature and time settings** with improved display accuracy.

- **Fast Heat-Up Time**

Heats from 0°C to 200°C in just **5 minutes**, reducing wait times and increasing productivity.

- **Thick & Dense Heating Coil**

Built with premium internal heating elements for **even temperature distribution** and longer lifespan.

- **Tool-Free Heater Exchange**

Easily swap between **Dia. 6-7.5cm and Dia. 7.5-9cm** mug heaters **by hand**, no tools required.

- **Durable Metal Housing**

Reinforced **iron electric box** ensures safety and structural integrity, especially during transport.

- **Beginner-Friendly Design**

Simple manual operation, intuitive interface, and minimal setup make it a **perfect choice for sublimation newcomers**.

Perfect For

- Print-on-demand sellers
- Small business owners
- Personalized gift creators
- Craft enthusiasts and DIYers
- First-time sublimation users

With the **MP-70BA-T Mug Heat Press**, you're not just buying a machine—you're investing in **precision, simplicity, and long-term reliability**. Whether you're launching your mug business or adding capacity, this press has you covered.

Machine Warranty
