

Description

UV DTF A & B 3D Transfer Films - Premium Quality for Hard Surface Printing

Our UV DTF A & B 3D Transfer Films offer an advanced solution for high-quality prints on a variety of hard surfaces. Designed for use with UV printers,

these films provide outstanding durability and flexibility, making them ideal for creating personalized and professional designs.

Whether you're printing on glass, leather, acrylic, or metal, our UV DTF films guarantee vibrant, long-lasting results that adhere effortlessly to curved or irregular surfaces.

Key Features

- **High Durability:** The films offer exceptional scratch resistance, waterproofing, and high temperature tolerance, ensuring your prints stay intact even under tough conditions.
- **Effortless Customization:** Print single pieces or large runs without any batch printing requirements—ideal for custom, on-demand production.
- **Eco-Friendly:** No glue or waste discharge required, making it a cleaner, greener choice for printing needs.
- **Strong Adhesion:** Designed for easy application on a variety of hard materials, with excellent

bonding strength.

- **Versatile Applications:** Perfect for glass, leather, metal, mobile phone cases, marble, acrylic, and other hard substrates. Ideal for products with curved or irregular surfaces.

MULTIPURPOSE

Advantages

- **Time and Cost Efficient:** Avoid batch printing setups; create single, customized pieces with minimal cost and effort.
- **No Glue, No Waste:** Enjoy an eco-friendly printing process with no additional adhesives or material waste.
- **Exceptional Adhesion:** No additional adhesives required for strong, long-lasting prints.
- **Durable Prints:** Scratch, water, and heat-resistant designs that maintain their appearance over time.

Applications

- **Materials:** Glass, Leather, Metal, Marble, Acrylic, and more.

- **Perfect For:** Personalized items such as phone cases, promotional products, signage, decorative objects, and more.
- **Curved and Irregular Surfaces:** Ideal for applications on rounded or uneven surfaces, overcoming the limitations of traditional UV printing.

Transform your printing process with UV DTF A & B Transfer Films—your go-to solution for vibrant, high-quality designs on hard materials. Get exceptional results with ease and reliability!

Machine Warranty
