UX-20 15.7" x 19.6" / 40cm x 50cm

Enhance your heat pressing projects with the Microtec UX Series Manual Heat Press, designed for both novices and professionals seeking a cost-effective, high-quality solution. This clamshell-style heat press offers a user-friendly experience without compromising on performance.

FEATURES

Clamshell Design with Wide Opening Angle: The UX Series features a generous opening angle of 50-55 degrees, providing easy access to the platen and reducing the risk of accidental burns. This design ensures safer and more comfortable operation.

Versatile Platen Sizes: Available in 15" x 15" and 16" x 20" sizes, the UX Series accommodates a variety of heat-applied products, including transfers, vinyl, rhinestones, and sublimation items.

Adjustable Pressure Control: An intuitive adjustment knob allows precise pressure settings tailored to different materials, ensuring consistent, high-quality results.

Non-Stick Teflon-Coated Platen: The Teflon-coated surface prevents materials from sticking and ensures even heat distribution, enhancing the durability and quality of your transfers.

Durable Gas Spring Mechanism: Equipped with a high-quality gas spring, the UX Series ensures smooth opening and closing operations, contributing to the machine's longevity and reliability.

Digital Time and Temperature Controller: The user-friendly digital display allows precise adjustments, with a maximum temperature of 225°C and a time range of 0 to 999 seconds, catering to various heat transfer requirements.

Ergonomic Extra Handle: An additional handle facilitates effortless application of pressure, enhancing control and reducing operator fatigue during extended use.

Innovative U-Design Fixture: The unique U-design under-platen fixture assists in accurately

positioning garments and materials, ensuring centered and properly aligned transfers.

Why Choose the Microtec UX Series Manual Heat Press?

Whether you're embarking on a new hobby or expanding your small business, the Microtec UX Series offers exceptional value without sacrificing quality. Its combination of user-friendly features, robust construction, and precise controls makes it ideal for a wide range of heat-applied products, from custom apparel to home décor.

Ideal for:

- Heat Transfers
- Vinyl Applications
- Rhinestone Transfers
- Sublimation Printing
- Custom Apparel and More

Machine Warranty
